

OSA Organizes Workshop to Introduce MubasherTrade

The Omani Securities Association (OSA) held a workshop hosting MubasherTrade to introduce the benefits and choices offered by the network to its clients in order to empower their trading in the capital markets. MubasherTrade contributes to providing analysis and investment advice, in addition to access to trading in all developed and emerging markets as classified by the Morgan Stanley Capital International Index (MSCI).

The workshop was attended by a number of officials from the Capital Market Authority (CMA), the Muscat Securities Market (MSM) and representatives of companies operating in the securities field.

The OSA organizes these workshops with the aim of providing market traders with the knowledge of the mechanisms and methods of accessing global markets, as well as highlighting the opportunities available to attract foreign capital through internationally accredited investment networks. In addition, the OSA views such workshops as an opportunity to interface and capitalize on existing experiences related to analysis and technical advisory that aid in investment decision-making.

Furthermore, the association seeks, through member programmes and activities, to establish sustainable channels of communications with its members, as well as to empower them with the skills and knowledge necessary for the development of the brokerage sector in the Sultanate.

About OSA

OSA is a professional non-profit association established pursuant to the Capital Market Law promulgated by royal decree number (80/90) and its amendments as well as Ministry Decree No. (7/2002), with the aim of handling the issues of its members: companies operating in the securities field. The association is involved in reconciling the interests of its members with other parties, in line with legislations and laws regulating the sector. OSA also motivates its members to uphold the laws and regulations that govern their activities that are regulated by the appropriate regulatory body. OSA has also opened its membership to institutions and individuals to provide them with the opportunity for additional professional effectiveness and increased awareness among investors.

OSA is an independent entity and is thus entitled to exercise ownership to achieve the aims for which it was established, and to conduct its work administratively and financially within the limits of the Capital Market Law and its amendments and executive regulations and the decrees issued to implement said law, as well as its memorandum of association and articles of association and applicable laws and regulations.

OSA's Vision

OSA is a not-for-profit association that operates in accordance with the highest international standards and acts as a reference to the brokerage profession and all stakeholders in the securities brokerage industry. OSA aims to boost its role in serving the capital market sector, as well as to continually support and develop member companies operating in the securities brokerage sector.

OSA's Values and Principles

The association aims to establish the rules and ethics of the profession and the ethical conduct of its members and affiliate institutions and individuals.

OSA's message

The Omani Securities Association aims to spread the mindset of investment in the securities market among all classes of society in general and among youth in particular. In addition, OSA aims to raise the level of investment awareness among traders in the financial market. This is achieved through holding training programmes and knowledge dissemination activities to train investors and qualify

them to conduct their market trading activities properly, thereby limiting the risks that investors may experience if they venture into stock trading without the necessary awareness.
